PROFESSIONAL SUMMARY

MERN Stack Developer with experience in building full-stack applications using MongoDB, Express.js, React, and Node.js along with Python. Strong understanding of authentication (JWT) and web vulnerabilities (OWASP Top 10). Focused on scalable and secure systems.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML, CSS

Stack: MERN (MongoDB, Express.js, React, Node.js)

Tools: Git, GitHub, VS Code, Linux

Concepts: JWT Authentication, CRUD Operations, Web Security, REST APIs

EXPERIENCE

Software Engineering Intern — Sifars, Patiala (09/2024 – 02/2025)

- Developed and tested features in agile environment
- Fixed bugs and improved performance
- Used Git for version control
- Participated in code reviews

PROJECTS

Job Application Tracker: Implemented full CRUD operations with JWT-based authentication for managing job applications.

AI-Based Matrimonial Website: Leveraged AI tools to accelerate development; explored benefits like rapid prototyping and limitations such as accuracy and dependency on manual validation.

EDUCATION

B.Tech CSE — CGC Jhanjeri (2025)

CBSE 12th — 85% (2021)

CBSE 10th — 78% (2019)
